MOBILITY INTELLIGENCE SOLUTIONS WORKSHOP

Date: 26th Feb, 20th Mar, 12th Apr 2018

Time: 2-5pm

Venue: Supply Chain City, Level 2 Innovation Playground
(8 Bulim Avenue #02-03 S648166)

Overview

Last mile and urban logistics remain one of the biggest challenges in the advent of eCommerce and rising consumerism. Besides the traditional fleet or transport management proposition, there is an increasing need to explore the use of sensors to enhance the intelligence of mobility solutions.

The Mobility Intelligence Solutions Workshop aims to provide a platform to showcase and explain the various types of mobility solutions that are available in the market as well as the various innovations and disruptive developments. In addition, attendees to the workshop can expect advisory and implementation support from Supply Chain Asia in the areas of solution design as well as engagement support with various agencies for assistance and support.

Topics covered:

- Industry 4.0 and its impact on Urban Logistics Mobility Solutions and its implications to transportation management
- Case Studies of Mobility Solutions
- Government Assistance and Support

The Mobility Intelligence Solutions Workshop is supported by Goldbell Corporation.

To register, please email admin@scasia.org.
